*The Olive Branch, Or, Faults on Both Sides, Federal and Democratic. A Serious Appeal on the Necessity of Mutual Forgiveness and Harmony* 1815 john finnis is a pioneer in the development of a new yet classically grounded theory of natural law his work offers a systematic philosophy of practical reasoning and moral choosing that addresses the great questions of the rational foundations of ethical judgments the identification of moral norms human agency and the freedom of the will personal identity the common good the role and functions of law the meaning of justice and the relationship of morality and politics to religion and the life of faith the core of finnis theory articulated in his seminal work natural law and natural rights has profoundly influenced later work in the philosophy of law and moral and political philosophy while his contributions to the ethical debates surrounding nuclear deterrence abortion euthanasia sexual morality and religious freedom have powerfully demonstrated the practical implications of his natural law theory this volume which gathers eminent moral legal and political philosophers and theologians to engage with john finnis work offers the first sustained critical study of finnis contribution across the range of disciplines in which rational and morally upright choosing is a central concern it includes a substantial response from finnis himself in which he comments on each of their 27 essays and defends and develops his ideas and arguments

Reason, Morality, and Law 2013-03-21 the state is often ascribed a special sort of authority one that obliges citizens to obey its commands and entitles the state to enforce those commands through threats of violence this book argues that this notion is a moral illusion no one has ever possessed that sort of authority

**The Problem of Political Authority** 2012-10-29 how can the brutal and costly enterprise of criminal punishment be justified this book makes a provocative original contribution to the philosophical literature and debate on the morality of punishing arguing that punishment is justified in the duties that offenders incur as a result of their wrongdoing

The Ends of Harm 2011-09-15 derek parfit presents the third volume of on what matters his landmark work of moral philosophy parfit develops further his influential treatment of reasons

**2023-07-31**

normativity the meaning of moral discourse and the status of morality he engages with his critics and shows the way to resolution of their differences this volume is partly about what it is for things to matter in the sense that we all have reasons to care about these things much of the book discusses three of the main kinds of meta ethical theory normative naturalism quasi realist expressivism and non metaphysical non naturalism which derek parfit now calls non realist cognitivism this third theory claims that if we use the word reality in an ontologically weighty sense irreducibly normative truths have no mysterious or incredible ontological implications if instead we use reality in a wide sense according to which all truths are truths about reality this theory claims that some non empirically discoverable truths such as logical mathematical modal and some normative truths raise no difficult ontological questions parfit discusses these theories partly by commenting on the views of some of the contributors to peter singer s collection does anything really matter parfit on objectivity though peter railton is a naturalist he has widened his view by accepting some further claims and he has suggested that this wider version of naturalism could be combined with non realist cognitivism parfit argues that railton is right since these theories no longer deeply disagree though allan gibbard is a quasi realist expressivist he has suggested that the best version of his view could be combined with non realist cognitivism parfit argues that gibbard is right since gibbard and he now accept the other s main meta ethical claim it is rare for three such different philosophical theories to be able to be widened in ways that resolve their deepest disagreements this happy convergence supports the view that these meta ethical theories are true parfit also discusses the views of several other philosophers and some other meta ethical and normative questions

**On What Matters** 2016-12-22 in this book christopher heath wellman offers original theories of political legitimacy and our obligation to obey the law and then building upon these accounts defends a number of distinctive positions concerning the rights and responsibilities individual citizens separatist groups and political states have regarding one another

**Liberal Rights and Responsibilities** 2014 in access right zohar efroni explores theoretical

elyse m fitzpatrick

the import and role of principles in the development of a just criminal law with contributions focusing upon core tenets such as the presumption of innocence fairness accountability the principles of criminal liability and the grounds for defences part 2 addresses questions of human rights and due process protections in both domestic and international law in part 3 the essays are addressed to core issues in sentencing and punishment they explore questions of equality proportionality adherence to the rule of law the totality principle in respect of multiple offences wrongful acquittals and unduly lenient sentences together they demonstrate how important ashworth s work has been in shaping how we think about criminal law and criminal justice and make their own invaluable contribution to contemporary discussions of criminalization and punishment

*Extinguishing and Preventing Oil and Gas Fires* 1919 john rawls 1921 2002 is widely held to be amongst the most important political philosophers for over a century this volume which is the first work of its kind to publish in one place the most influential essays in the field features articles on a wide range of subjects including constitutionalism democratic theory egalitarianism feminism global justice political liberalism the rule of law and public reason the collection informs scholars and students coming to the study of rawls s work for the first time of the importance and complexity of rawl s ideas and sheds light on how these ideas might be further improved and applied

**The Austrian Mind** 2023-09-01 deterrence is a theory which claims that punishment is justified through preventing future crimes and is one of the oldest and most powerful theories about punishment the argument that punishment ought to secure crime reduction occupies a central place in criminal justice policy and is the site for much debate should the state deter offenders through the threat of punishment what available evidence is there about the effectiveness of deterrence is deterrence even possible this volume brings together the leading work on deterrence from the dominant international figures in the field deterrence is examined from various critical perspectives including its diversity relation with desert the relation of deterrence with incapacitation and prevention the role deterrence has played in

debates over the death penalty and deterrence and corporate crime

*Principles and Values in Criminal Law and Criminal Justice: Essays in Honour of Andrew Ashworth* 2012-08-16 corporate finance provides coverage in a more concrete and problem based approach than other books on the market robert j rhee distinguishes this casebook from other fine books in the field in a number of important ways this book is interdisciplinary in nature providing essential coverage of the basic concepts of accounting and finance needed for a business lawyer to understand the economics of the transaction additionally the text facilitates ease of learning and teaching avoiding excerpting technically dense academic writings in finance and economics which can intimidate students and teachers it further provides a basic understanding of financial instruments to prepare students for corporate practice including many examples of actual financial contract terms and other transactional documents taken from various sources features in depth coverage of accounting finance valuation and capital markets in an accessible manner inclusion of transactional documents and focus on financial contracts generous use of graphics tables and charts to organize and convey complex information accessibility of materials business school style case studies at the end of some chapters

**Legal Services Corporation Reauthorization** 1983 the criminalization series arose from an interdisciplinary investigation into criminalization focussing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize how should criminal wrongs be classified and differentiated how should law enforcement officials apply the law s specifications of offences the sixth volume in the series offers a philosophical investigation of the relationship between moral wrongdoing and criminalization considering they justification of punishment the nature of harm the importance of autonomy inchoate wrongdoing the role of consent and the role of the state the book provides an account of the nature of moral wrongdoing the sources of

wrong doing why wrong doing is the central target of the criminal law and the ways in which criminalization of non wrongful conduct might be permissible

**Rawls and Law** 2017-07-05 this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public to ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

**Slavery and the Civil War** 1862 in this challenging interdisciplinary book lea brilmayer seeks to alter the terms in which we discuss the ethics of international relations traditionally such relations have been thought to concern the horizontal interactions between sovereign nation states and have been studied quite separately from the vertical relations between individuals and their national governments which are thought to be the object of mainstream political theory arguing that this view has impoverished our thinking about international politics brilmayer maintains that problems in international relations like those that arise in domestic political life must be considered in terms of the political theory that legitimates the domestic governments of the nations involved

**Deterrence** 2019-11-11 1890 1926 include also decisions of the board of u s general appraisers no 1 9135

**Corporate Finance** 2016-01-28 this volume explores the attention awarded in the english speaking world to german philosopher gottfried wilhelm leibniz complete with an introductory overview the book collects fourteen essays that consider leibniz s connections with his english speaking contemporaries and near contemporaries as well as the later reception of his

**give them grace dazzling your kids with the love of jesus elyse m fitzpatrick**

thought in anglo american philosophy it sheds new light on leibniz s philosophy and that of his contemporaries

**Wrongs and Crimes** 2016-12-06 the essays collected in this volume by paul guyer one of the world s foremost kant scholars explore kant s attempt to develop a morality grounded on the intrinsic and unconditional value of the human freedom to set our own ends when regulated by the principle that the freedom of all is equally valuable the freedom to set our own ends what kant calls humanity becomes what he calls autonomy these essays explore kant s strategies for establishing the premise that freedom is the inner worth of the world or the essential end of humankind as he says and for deriving the specific duties that fundamental principle of morality generates in the empirical circumstances of human existence the virtues of freedom further investigates kant s attempts to prove that we are always free to live up to this moral ideal that is that we have free will no matter what as well as his more successful explorations of the ways in which our natural tendencies to be moral dispositions to the feeling of respect and more specific feelings such as love and self esteem can and must be cultivated and educated guyer finally examines the various models of human community that kant develops from his premise that our associations must be based on the value of freedom for all the contrasts but also similarities of kant s moral philosophy to that of david hume but many of his other predecessors and contemporaries such as stoics and epicureans pufendorf and wolff hutcheson kames and smith are also explored

**A Treatise on Extraordinary Legal Remedies** 1884 research on federalism is rarely concerned with its philosophical foundations however arguments on why and how best to organise a plurality of states in a multilevel political order have first been discussed by philosophers and continue to inspire contemporary reasoning on international and supranational relations not only in political philosophy this book offers a unique overview of the philosophical foundations of federalism from both a historical and a systematic perspective the analyses proposed by renowned scholars from the us and from several european countries cover classic writers such as hobbes and the authors of the federalist papers kant and rawls and range from

**2023-07-31**

anthropological justifications of federal orders to contemporary problems of eu constitutionalism the principle of subsidiarity and the jurisdiction of the european court of human rights echr the book is of relevance to anyone interested in philosophical justifications of federalism

**Justifying International Acts** 2019-05-15 general jurisprudence is the theory of law in general identifying features that law has wherever and whenever legal institutions exist but it is no hermetic inquiry law depends on and has consequences for politics and morality in the germ of justice one of the subject s prominent exponents disentangles these relationships professor leslie green probes three clusters of problems the nature of law as a social construction the relations between law and morality and the demands that law makes of its officers and its subjects along the way green asks what jurisprudence can learn from the social sciences how it is related to the humanities how it might make progress and why it is of value this wonderful and accessible text engages leading theories of law and key works of hume kelsen hart dworkin finnis and raz the germ of justice is a must have work in contemporary jurisprudence and a powerful contribution to political theory and moral philosophy

**Treasury Decisions Under Customs and Other Laws** 1926 compulsory voting is widely used in the democratic world and it is well established that it increases electoral participation beyond turnout how compulsory voting shapes citizens and political parties assesses the effects of compulsory voting beyond turnout singh first summarizes the normative arguments for and against compulsory voting provides information on its contemporary use reviews recent events pertaining to its proposed adoption and abolition and provides an extensive account of extant research on its consequences he then advances a theory that compulsory voting polarizes behavior and attitudes and broadens gaps in political sophistication levels among those with negative and positive orientations toward democracy recognizing the impact of mandatory voting on the electorate political parties then alter the ways in which they seek votes with mainstream parties moderating their platforms and smaller parties taking more extreme positions singh uses survey data from countries with compulsory voting to show that support

for the requirement to vote is driven by individuals orientations toward democracy the theory is then comprehensively tested using cross national data cross cantonal data from switzerland and survey data from argentina empirical results are largely indicative of the theorized process whereby compulsory voting has divergent effects on citizens and political parties the book concludes with a discussion of future directions for academic research implications for those who craft electoral policy and alternative ways of boosting turnout comparative politics is a series for researchers teachers and students of political science that deals with contemporary government and politics global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour the series is published in association with the european consortium for political research for more information visit [ecprnet.eu](http://ecprnet.eu) the series is edited by susan scarrow chair of the department of political science university of houston and jonathan slapin professor of political institutions and european politics department of political science university of zurich

**Union Labor Report Weekly Newsletter** 1995 moral self regard draws on the work of marcia baron joseph butler and allen wood among others in this first extensive study of the nature foundation and significance of duties to oneself in kant s moral theory

**Leibniz and the English-Speaking World** 2007-05-19 review of schulz s attempt at an introduction to a doctrine of morals for all human beings regardless of different religions an answer to the question what is enlightenment on the wrongfulness of unauthorized publication of books groundwork of the metaphysics of morals review of gottlieb hufeland s essay on the principle of natural right kraus review of ulrich s eleutheriology critique of practical reason on the common saying that may be correct in theory but it is of no use in practice toward perpetual peace the metaphysics of morals on a supposed right to lie from philanthropy on turning out books

**Virtues of Freedom** 2016 an updated and expanded successor to culver and gert s philosophy in medicine this book integrates moral philosophy with clinical medicine to present a comprehensive summary of the theory concepts and lines of reasoning underlying the field of

give them grace dazzling your kids with the love of jesus elyse m fitzpatrick

bioethics rather than concentrating narrowly on bioethics and investigating moral philosophy only marginally the authors provide an explicit account of common morality and show how it applies to and is modified by the realities of clinical medicine such broader knowledge finds its specific practical application when one attempts to resolve the more complex and difficult cases this book does not attempt to settle all controversial matters but rather provides an ethical framework that various parties to the dispute can accept and use as a basis for reaching agreement thus the authors main goal is to facilitate ethical discussion their detailed analyses of death and disease maintain the theoretical objectivity of these concepts while recognizing their central role in social and medical practices they also provide in depth discussions of the central concepts and issues in bioethics competence consent justification for moral rule violations and confidentiality paternalism one of the most pervasive problems in clinical medicine is accorded special attention all these concepts have been integrated and systematically grounded within common morality the book is richly illustrated with discussions of clinical cases the authors explicitly compare their position with other accounts of bioethics such as principlism casuistry and virtue theory their discussion of euthanasia and physician assisted suicide clarifies and evaluates the recent legal decisions on these topics the arguments throughout the volume stand out with characteristic clarity and cogency a fresh and all encompassing approach to bioethics that does not shy away from controversy bioethics a return to fundamentals will interest not only students in philosophy of medicine and medical ethics courses but also moral philosophers and bioethicists as well as doctors nurses and other health care professionals

*Bulletin to Management* 1995 virtually everyone supports religious liberty and virtually everyone opposes discrimination but how do we handle the hard questions that arise when exercises of religious liberty seem to discriminate unjustly how do we promote the common good while respecting conscience in a diverse society this point counterpoint book brings together leading voices in the culture wars to debate such questions john corvino a longtime lgbt rights advocate opposite ryan t anderson and sherif girgis prominent young social
