## **Army Field Manual FM 5-428 (Concrete and Masonry)**

2007-10-04

excerpt from a field manual for railroad engineers nearly twenty years ago the first edition of this manual was issued except for minor corrections and the addition of tables xxvi ii and xxix in the second edition less than two years later no changes have since been made for several years the author has had a general revision in contemplation but other and more pressing calls have prevented this as finally made the revision covers more than was intended when it was begun but falls short of what it should be and has been done in a fragmentary manner it is hoped however that the usefulness of the book has been increased considerable new matter has been added to chapter v in order to conform to present practice formulas have been derived for the conditions of straight frogs and switch points some engineers prefer the more approximate treatment in which both switch rails and frogs are assumed to be curved and certam the formulas are simpler and easier of application for those who prefer it the old method has been retained in large part one may take his choice of methods a brief treatment of the mass curve in connection with overhaul has been inserted and the subject of grades has been amplified scattered through the text numerous other changes additions and omissions have been made about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a

blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

## **Facility Inspection Field Manual: A Complete Condition Assessment Guide**

2011-11

trieste publishing has a massive catalogue of classic book titles our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time the many thousands of books in our collection have been sourced from libraries and private collections around the world the titles that trieste publishing has chosen to be part of the collection have been scanned to simulate the original our readers see the books the same way that their first readers did decades or a hundred or more years ago books from that period are often spoiled by imperfections that did not exist in the original imperfections could be in the form of blurred text photographs or missing pages it is highly unlikely that this would occur with one of our books our extensive quality control ensures that the readers of trieste publishing s books will be delighted with their purchase our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality this process ensures that the reader of one of trieste publishing s titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work we pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers generally trieste books are purchased singly on demand however they may also be purchased in bulk readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates
