to survive they ll have to defend themselves with nothing more than their creativity and the soul of a city that refuses to be dominated drawing comparisons to the mind bending work of gabriel garcía márquez this lush and thought provoking dystopian novel is an examination of human spirit for better or worse and a magical journey into what it means to survive in the mid 1930s north america s great plains faced one of the worst man made environmental disasters in world history donald worster s classic chronicle of the devastating years between 1929 and 1939 tells the story of the dust bowl in ecological as well as human terms now twenty five years after his book helped to define the new field of environmental history worster shares his more recent thoughts on the subject of the land and how humans interact with it in a new afterword he links the dust bowl to current political economic and ecological issues including the american livestock industry s exploitation of the great plains and the on going problem of desertification which has now become a global phenomenon he reflects on the state of the plains today and the threat of a new dustbowl he outlines some solutions that have been proposed such as the buffalo commons where deer antelope bison and elk would once more roam freely and suggests that we may yet witness a great plains where native flora and fauna flourish while applied ecologists show farmers how to raise food on land modeled after the natural prairies that once existed a crack shot expert skinner and tanner seamstress sculptor and later writer a list that only hints at her intelligence and abilities ella elgar bird dumont was one of those remarkable women who helped tame the texas frontier first married at sixteen to a texas ranger she followed her husband to comanche indian country in king county where they lived in a tepee while participating in the final slaughter of the buffalo living off the land until the frontier was opened for ranching ella and tom bird typified the old west ideals of self sufficiency and generosity with a hesitancy to complain about the hard life in the late 1800s yet in one important way ella dumont was unsuited for life on the frontier endowed with an instinctive desire and ability to carve and sculpt she was largely prevented from pursuing her talents by the responsibilities of marriage and frontier life and later widowhood with two small children even though her second marriage to auguste dumont made life more comfortable the realities of her existence still prevented the fulfillment of her artistic longings ella bird dumont s memoir is rich with details of the frontier era in texas when indian depredations were still a danger for isolated settlers where animals ranged close enough to provide dinner and a new pair of gloves and where sheer existence depended on skill luck and the kindness of strangers the vividness and poignancy of her life coupled with the wealth of historical material in the editor s exhaustive notes make this texas pioneer s autobiography a very special book spanning a broad trajectory from the new gaelic man of post independence ireland to the slick urban gangsters
