this thought provoking tour through the science of magic will make you question what you know about your brain and your reality

a psychologist and magician shows how the scientific study of magic reveals intriguing and often unsettling insights into the mysteries of the human mind what do we see when we watch a magician pull a rabbit out of a hat or read a person's mind we are captivated by an illusion we applaud the fact that we have been fooled why do we enjoy experiencing what seems clearly impossible or at least beyond our powers of explanation in experiencing the impossible gustav kuhn examines the psychological processes that underpin our experience of magic kuhn a psychologist and a magician reveals the intriguing and often unsettling insights into the human mind that the scientific study of magic provides magic kuhn explains creates a cognitive conflict between what we believe to be true for example a rabbit could not be in that hat and what we experience a rabbit has just come out of that hat drawing on the latest psychological neurological and philosophical research he suggests that misdirection is at the heart of all magic tricks and he offers a scientific theory of misdirection he explores among other topics our propensity for magical thinking the malleability of our perceptual experiences forgetting and misremembering free will and mind control and how magic is applied outside entertainment the use of illusion in human computer interaction politics warfare and elsewhere we may be surprised to learn how little of the world we actually perceive how little we can trust what we see and remember and how little we are in charge of our thoughts and actions exploring magic kuhn illuminates the complex and almost magical mechanisms underlying our daily activities

a boldly rendered and deeply intimate account of hong kong today from a resilient young woman whose stories explore what it means to survive in a city teeming with broken promises a pulsing debut about what it means to find your place in a city as it vanishes before your eyes the new york times book review one of the most anticipated books of 2022 entertainment weekly purewow hong kong is known as a place of extremes a former colony of the united kingdom that now exists at the margins of an ascendant china a city rocked by mass protests where residents rally often in vain against threats to their fundamental freedoms but it is also misunderstood and often romanticized drawing from her own experience reporting on the politics and culture of her hometown as well as interviews with musicians protesters and writers who have watched their home transform karen cheung gives us a rare insider's view of this remarkable city at a pivotal moment for hong kong and ultimately for herself born just before the handover to china in 1997 cheung grew up questioning what version of hong kong she belonged to not quite at ease within the middle class cosmopolitan identity available to her at her english speaking international school she also resisted the conservative values of her deeply traditional often dysfunctional family through vivid and character rich stories cheung braids a dual narrative of her own coming of age alongside that of her generation with heartbreaking candor she recounts her yearslong struggle to find reliable mental health care in a city reeling from the traumatic aftermath of recent protests cheung also captures moments of miraculous triumph documenting hong kong's vibrant counterculture and taking us deep into its indie music and creative scenes inevitably she brings us to the protests where her understanding of what it means to belong to hong kong finally crystallized an exhilarating blend of memoir and reportage the impossible city charts the parallel journeys of both a young woman and a city as they navigate the various sometimes contradictory paths of coming into one's own
