to train your ear one must learn to distinguish sounds acquiring perfect pitch requires in addition to remember pitches in early childhood we collect the vast part of our relevant sound memory by imitating the sounds with our vocal cords however our brain doesn t stop there at a later age we can still learn a new foreign language three new method s to acquire absolute pitch and relative pitch supported by software feedback are presented in this book the first method

the singing funnel method lets you acquire absolute pitch like a foreign language the second method the octave anchor pitches method helps you to orientate yourself in the pitch realm the last method the interval overtone method improves your interval hearing
